Wooden
Rafters
& Ceilings

UPGRADE TO THE TREND

Here at Sudheer Timbers, we've been dedicated to processing wood, designing and manufacturing decorative and technical solutions for your spaces for almost a hundred years.

We strive every day to address the needs of the interior design and construction sector by creating wood products and processing solid wood. Our processes ensure that the wood retains all of its qualities, while improving its efficiency through an industrial process based on the circular economy.

Design is in our DNA at Sudheer Timbers; not only is it the linchpin of our product creation process, but it's also one of our key strengths as a brand. This catalogue acts as an inspirational guide, pushing the boundaries of design and the materials that will become part of the spaces we inhabit in the coming years.

At our factory in Yakamuru, Vijayawada, we strive every day to make Sudheer Timbers a benchmark for quality materials in all projects, and are now one of the most recognised and reliable Wooden Rafter brands in the industry.

Variety of Finishes

~ Craftmanship Meets Modernity ~

Natural Finishes

Satin Lacquer Finish

Adds lustre to the wood without hiding its character. It makes the surface pleasing to the underfoot as well as easy to maintain and hardwearing.

Matt Finish

Gives textured impression of pure and untreated wood. The subtle finish does not conceal woods natural look while making it more durable and easier to clean. The soft natural surface is pleasant to walk barefoot on.

High Gloss Finish

The high gloss lacquer gives your floor a shiny, polished look and provides a reflecting surface. It offers an exciting alternative to more conventional wood floors.

Oil Finish

Oil brings out the fine structure and grains of the wood and enhances the natural colour. Floors should be oiled immediately after installation and regularly maintained with satin oil.

Duco Paint Finishes

High Gloss Finish

Gives off a reflective, shiny, glass like sheen

Semi Gloss Finish

Gives off a noticeable shine and light reflection

Satin Finish

Offers a soft, velvety sheen, reflects light subtly.

Matte Finish

Offers a non-reflective, flat appearance.

PU Paint Finishes

High Gloss Finish

Gives off a reflective, shiny, glass like sheen

Semi Gloss Finish

Gives off a noticeable shine and light reflection

Satin Finish

Offers a soft, velvety sheen, reflects light subtly.

Matte Finish

Offers a non-reflective, flat appearance.

How To Choose a Wooden Rafter & Ceiling

Selecting a design might seem overwhelming, but with us it isn't.

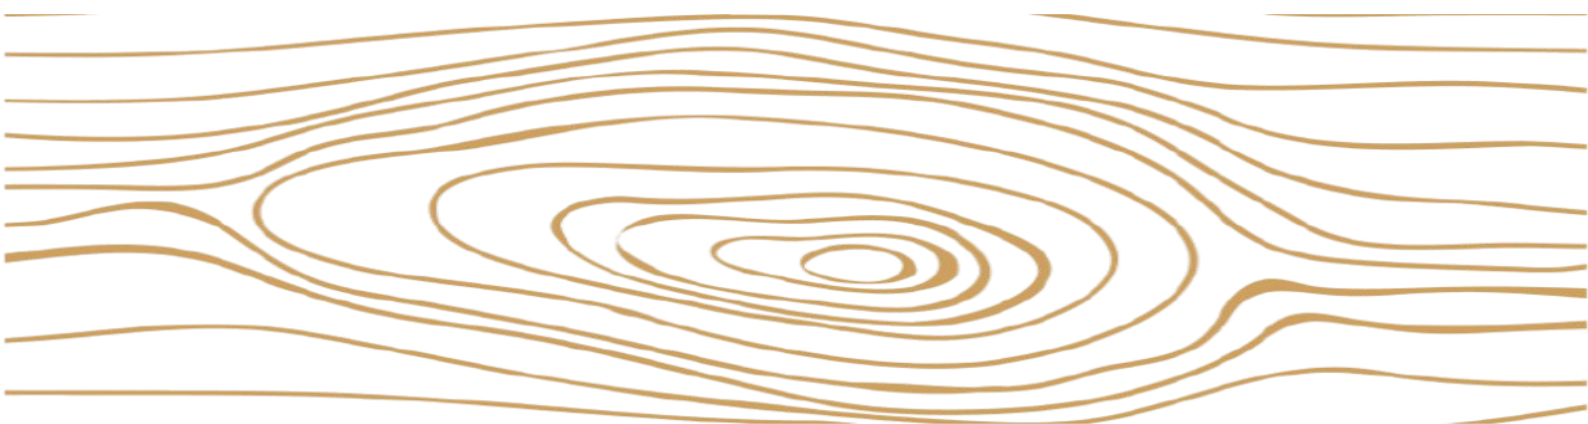

Wooden rafter and ceiling can be easily picked to complement your interior décor.

- An earthy rugged wood design will bring your space closer to nature while smoother, lighter and softer grains will lend a subtle elegance that's chic and urban.
- Choosing a lighter wood colour will make a confined space look larger and more open while darker shades will make a large room appear cosy and intimate.
- Also do consider the tones of your furniture and walls for making a perfect

Lacquer or Oil finish?

In general, lacquered surface reflects the light more than an oiled one, while matt finish is its opposite.

A hand is shown from the bottom left, cupping a small, vibrant green sapling with a mound of dark soil. The background is a soft-focus, sunlit forest with rolling hills, creating a sense of nature and growth. The lighting is warm, suggesting a sunrise or sunset.

Sustainability

Wood products play a fundamental role in environment conservation and enhancing the value of natural resources. That is why we are committed to sustainability, both when designing and executing our processes, and in our environmental policy.

In addition to respecting and protecting the forests, which are our main source of raw material, at Sudheer Timbers we're working to go beyond the limits of our workplaces with the aim of contributing to environmental development, and that of its inhabitants.
